The screenshot displays the 'M3 客户端' (M3 Client) web interface. The top navigation bar contains the title 'M3 客户端' and buttons for '提档' (Archive), '归档' (Archive), '设定' (Settings), and '退出' (Logout). Below this is a sub-header for '档案' (Archive) with a '提档' button and search filters for '日期' (Date), '从' (From), and '到' (To). The main content area shows a table of archived video files. The table has columns for '文件名' (Filename), '用户名' (Username), '类型' (Type), '大小' (Size), '归档日' (Archive Date), and '归档盘片标签' (Archive Disk Label). The table lists 9 files, all of type '视频' (Video) and owned by 'user1'. The files are sorted by archive date, ranging from 2015-05-15 to 2015-06-02. A left sidebar shows a tree view of the archive structure, including folders for '质检 1', '监控 1', '监控 2', '监控备份', '企划档案', and '重要备份'. The '监控备份' folder is currently selected.
